## CAREER TRAITS

**Holistic Designer** - Design should be treated as a living organism, guided by the environment it lives in as a whole.

**User-Focused** - I pay close attention to the user's needs and pain points. I design with empathy. Launch, learn & iterate.

**Proactive Evolution** - Curiosity and a desire to learn constantly broadens my skill set, enabling me to wear many hats at once.

**Bold, yet practical** - I know when to push the boundaries vs. when to embrace simplicity to meet multiple deadlines.
